

Green Gallop Natural Equine Fly Spray

PRODUCT DATA SHEET

Document:

Revision: 1.0

Revision Date: 2026-07-25

Product Overview

Green Gallop is a ready-to-use botanical horse fly repellent formulated with plant-based active ingredients. It helps repel flies while leaving the horse's coat clean, conditioned, and pleasantly scented.

Key Features

- Botanical active ingredients
- Ready-to-use formula
- Pleasant natural fragrance
- Helps condition the coat
- Suitable for daily use

Applications

- Horses
- Ponies
- Barns
- Stables
- Training facilities
- Equestrian centers

Directions

Shake well before use. Spray evenly over the horse's coat, avoiding the eyes, nostrils, and mouth. Reapply as needed, especially after heavy sweating, rain, or bathing.

Limitations

For external use on horses and ponies only.
Do not apply to the eyes, nostrils, mouth, or other sensitive areas.
Do not use on animals with known sensitivity to any ingredient.
Discontinue use if irritation occurs.
This product is intended to help repel flies and other listed insects. Effectiveness may vary depending on environmental

conditions, insect population, weather, and application frequency.
Reapply as needed to maintain protection.
Store according to label directions and do not use if the product has become contaminated or frozen.
